Heat Treating Specialists

Full Service

Thermal Technologies, Inc., is a full service heat treating company. We focus on providing the highest quality services at competitive rates. TTI tailors our products and services to meet our clients' unique requirements.

We provide the kind of service that sustains long-term relationships; relationships that enable us to respond more efficiently and proactively to our customers' changing needs. Our commitment to partner with each of our clients is based on the concepts of high quality, personal service and cutting-edge innovation.

- Onsite Stress Relieving (P.W.H.T.)
- Weld Preheat
- Refractory Curing
- Plaste/Glass Curing
- Thermal Expansions
- Temporary Heat

Furnace Combustion Firing Services

Not all welds have to be heat treated on site. There are times where batches of pipe can be pre-fabbed and treated off site. For cost effective solutions, we

maintain our own gas-fired furnaces to treat pipe in our facilities.

Products:

- Heat Treat Consoles (new and refurbished)
- Heaters and Cables
- High Temperature Fabrics
- Insulation— knitted, woven and ceramic
- Consumables
- Tooling
